## Seperate API's Commercials

API's		
One time setup	Life time support , Tech and AMC cost	Will be included in any SDK
Face Match API	Matches 2 images and responds back with match percentage	₹1.5 per transaction
Face Extract	Extract photo from a document(Aadhaar and PAN)	₹2 per transaction
Doc Extract	Extract details from the OVD(PAN and Aadhaar)	₹2.3 per side of the document
Verification API	Aadhar/PAN /Voter ID	₹3 per transaction

## Solution Highlights

- We identify and verify identities using UIDAI recommended and compliant methods of Offline Aadhaar KYC namely - Paper-less XML, eAadhaar PDF as well as Aadhaar QR Code. We verify UIDAI's signatures and manage customer experience between your application and UIDAI portal. Offline Aadhaar KYC gives you the same assurance as Aadhaar API KYC because it is compliant with UIDAI regulations
  - We identify and verify identities digitally using multiple other Original Verified Documents (OVDs) (PAN, Voter Card, Passport, Drivers License) and different Authentication methods - OTP, Face Authentication, UIDAI verified and data matches between different documents
  - You can further enhance KYC by doing a 2nd Factor of Authentication - Face Auth with a liveness check
  - Our face with liveness check ensures that the user in video and ID submitted is same eliminating the risk of static photo and pre-recorded video
- Features
- Supports UIDAI XML, Offline QR Code and eAadhaar PDF
  - Get customer details on Name, Address, Gender, DOB, Photo, Email, Phone number
  - Validate UIDAI Signatures
  - Instant and Digital KYC in less than 1 minute
  - Smart OCR technology supporting multiple ID cards - PAN, Voter Card, Passport, Aadhaar, Drivers License
  - Video selfie including liveness, blur and anti-spoofing checks
- Verification Methods
- OTP - Mobile & Email
  - Biometric - Video/Image Selfie
- Deployment Methods
- Support for Web and Mobile Applications
  - Support API and SDK based integrations
